## 1. Purpose

To provide a policy framework for safe and ethical coaching, scientific and medical practice within WAIS.

## 2. Background

One of the four guiding principles for WAIS is Community Values; this principle commits WAIS to maintaining and reflecting high community values in all aspects of its operations. WAIS has chosen to support the achievement of sporting excellence through safe and ethical practice consistent with this Guiding Principle.

WAIS recognises that there are unsafe and/or unethical practices available to assist achieve higher levels of athletic performance. It also recognises that the pursuit of athletic success in the international sporting arena requires an approach that embraces new and emerging knowledge, technology, product and practice.

WAIS also recognises that its staff, contractors and consultants are in significant positions of power and authority in relation to athletes they assist. Therefore, the highest standards of professional and personal integrity must be defined and maintained to ensure this position is not inappropriately used to influence athlete decisions and or actions.

In developing this policy framework WAIS acknowledges the AIS Sports Science/Sports Medicine Best Practice Principles of;

- 2.1 Education,
- 2.2 Detection and enforcement, and,
- 2.3 Oversight and Monitoring.

## 3. Policy Framework

To ensure that WAIS achieves its purpose through safe and ethical practice the following policies are endorsed and monitored.
